BACKGROUND INFORMATION: (Prior action/information)

The City of Calexico is proposing the Cole Blvd Eastside Widening Improvement Project. This proposed project consists of Cole Blvd from Bowker Road and SR98 for approximately 0.7 miles and will widen from two lanes to a four lane facility, project description includes the widening of the Central Main Bridge. The federal funding allocated for this project is \$1,837,000. As part of the requirements for the Surface Transportation Program (STP) projects the City must obtain approval for funding obligation by no later than July 2010. In order to have the design, plans and specifications completed no later than by June 2010 the General Services Director is recommending the execution of the attached agreement.

DISCUSSION (Current consideration):

City staff recommends BJ Engineering and Surveying, Inc. as the Engineering Consultant firm for the subject project. Due to the time constraints, it is essential that the City Council approve the recommendation set forth in order to avoid losing said funding.

BJ Engineering prepared the partial design of the subject bridge. The work to be performed will be to update the bridge design and bring it up to current code.

DOCUMENT(S) ATTACHED:

1. Standard Agreement for Professional Engineering Consultant Services

Pros:

Authorizing the award of the contract for the engineering services will allow the city to meet the tight design schedule for the project and ensure successful completion of the PS&E to prevent loss of federal funds.

Cons:

Should the city not authorize the contract award for engineering services, the funding for the project could be impaired and the project will not materialize unless city funds are utilized.
